Visit Facebook Page and Click on Edit CTA Button

Select Use App from the Dropdown

**Use App**

Choose where people can find your app.

Paste Onelink > Click Save

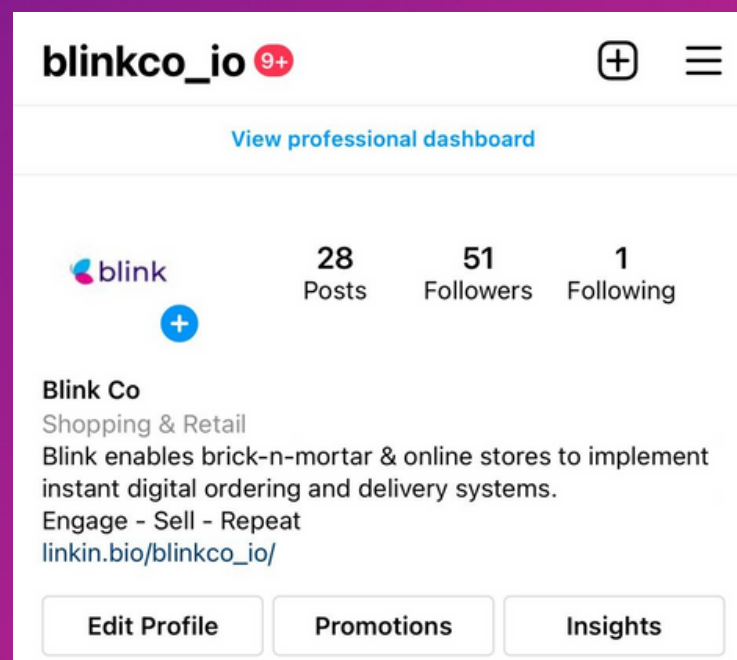

**Use App**

Where can people download your app?

Website

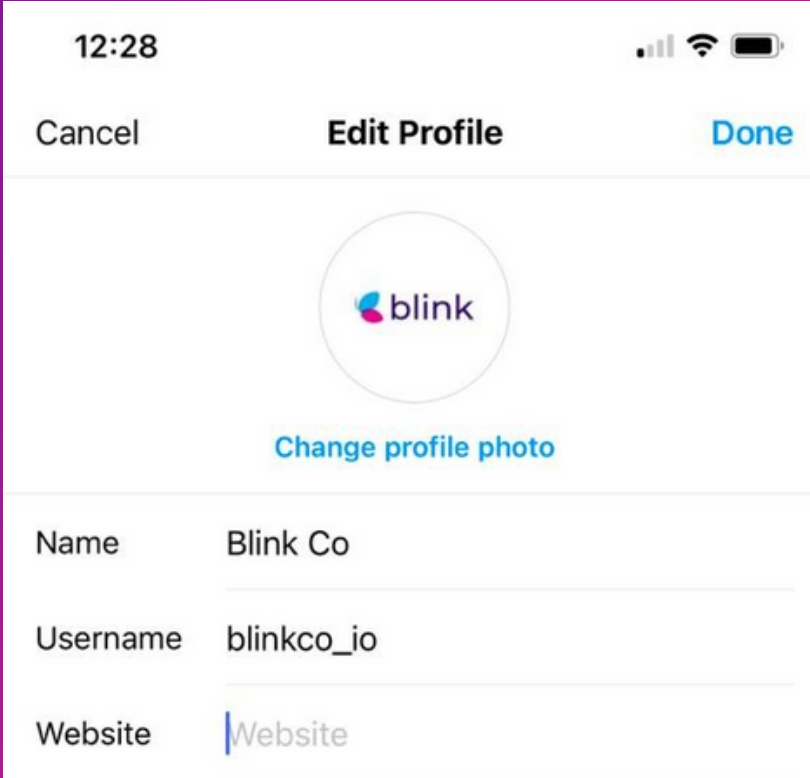

[Cancel](#)[Save](#)

Visit Instagram Page > Click Edit Profile

Paste Onelink > Tap Done

A screenshot of a mobile app's "Edit Profile" screen. At the top, the status bar shows the time "12:28" and signal/battery icons. The header bar has "Cancel" on the left, "Edit Profile" in the center, and "Done" on the right. Below the header is a circular profile picture placeholder containing the "blink" logo. Underneath the photo is a blue link that says "Change profile photo". Below this is a form with three rows: "Name" with the value "Blink Co", "Username" with the value "blinkco\_io", and "Website" with a placeholder "Website" and a blue cursor.
